

Rail Style Liftgate

Gas Cylinder Direct Vertical Lift

GBD Series

Simplest to maintain and operate compared to other direct lifts, because of our revolutionary series hydraulic circuit design and automatic self-leveling system.

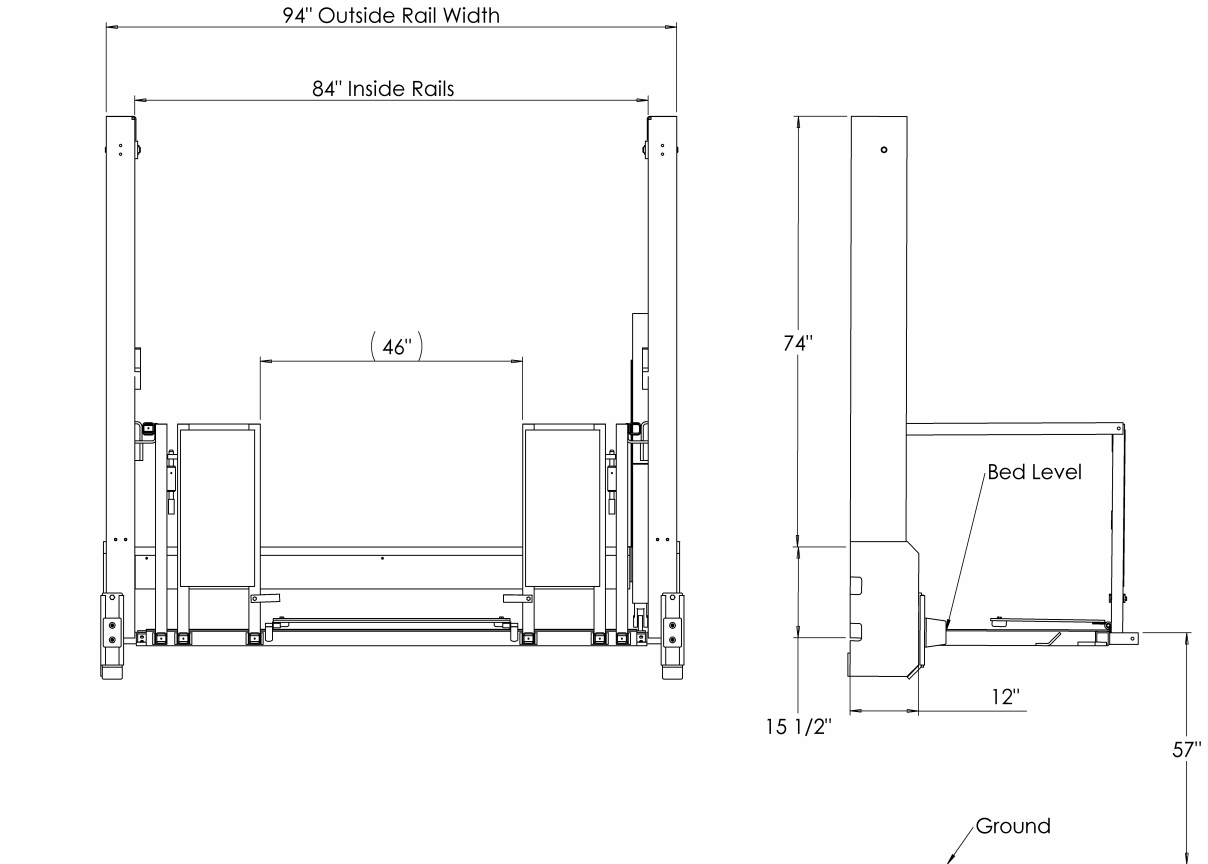

Key Features

- Automatic self-bleeding system equates to a simpler hydraulic system
- UHMW wear pads offer longer life
- Dock Bumpers are independent of the liftgate, allowing fast and simple repair, while protecting the rails
- Unique standard features include: power up and down control for smooth consistent cycling in all weather conditions, power open/close.
- **Lifting capacity** – 3,500 & 4,500 lbs.
- **Applications** – straight trucks and trailers
